

# 2017 Summer Healthcare-Associated Infections (HAI) Workshops

## Healthcare-Associated Infections in Ambulatory Care Settings: *Meeting the Expectations, Now and in the Future*

### ■ Dates & Locations

Check-in at all locations starts at 12:00 pm. The program begins at 12:30 pm and adjourns at 4:00 pm. The topics are the same for each site.

- **June 7, 2017 – Columbia**  
Primaris, 200 N. Keene St., Suite 101
- **June 21, 2017 – Cape Girardeau**  
Saint Francis Medical Center, 211 Saint Francis Dr.
- **June 28, 2017 – St. Louis**  
Drury Inn & Suites Forest Park, 2111 Sulphur
- **July 21, 2017 – Kansas City**  
St. Joseph Hospital, 1000 Carondelet Drive
- **July 26, 2017 – Springfield**  
Cox North Hospital Fountain Plaza Room,  
1433 North Jefferson Avenue

### ■ Target Audience

Clinical nurses, infection control practitioners, clinical directors, quality improvement specialists, regulatory personnel and others who are interested in the topic. Individuals from all types of ambulatory care settings, including, but not limited to, various types of medical offices and primary care clinics (e.g., rural health clinics, FQHCs, etc.), retail health clinics, ambulatory surgical centers, ESRD centers, and urgent care.

### ■ Purpose

Healthcare-Associated Infections (HAIs) cut across all care settings. All settings, including ambulatory care settings, are either currently, or soon will be, required to have an infection control and prevention program including an antimicrobial stewardship plan. The purpose of this workshop is to prepare ambulatory care providers to be ready for the changes on the horizon. You will learn what is expected as well as practical strategies to meet them. These workshops will also provide the latest evidence regarding the prevention of HAIs in ambulatory care, using a strong clinical focus with practical implementation strategies.

### ■ Content

- Regulatory considerations specific to ambulatory care
- The major HAI-related citations
- Potential problem areas in your own setting
- Standards of practice for ambulatory care settings
- Hot button issues regarding HAIs in ambulatory care settings
- Antimicrobial resistance and stewardship

### ■ Agenda

- 12:00 Check-in and hosted luncheon
- 12:30 Welcome and introductions
- 12:45 **Regulatory Requirements: Here and Now and the Future**
  - Challenges to meet current regulatory requirements
  - What does the future hold? What's next? Get ready now!
  - The major citations identified by surveyors of ambulatory care settings
- 1:15 **Clinical Issues and Key Management Strategies Regarding HAIs in Ambulatory Care Settings**
  - Practice challenges
  - How to develop a risk assessment (RA) and infection control (IC) plan
  - What are the hot button issues?
  - High level disinfection
  - Sterilization
  - Equipment cleaning
  - Safe injection practices
  - Others
- 2:15 Beverage Break
- 2:30 Continuation of 1:15 session
- 3:30 Antimicrobial Resistance and Stewardship

4:00 Adjourn

## ■ CE Credit

### **RNs & APRNs**

The University of Missouri Sinclair School of Nursing is an approved provider of continuing nursing education by the Midwest Multistate Division, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. Midwest Multistate Division Provider Number MO1019-7

3.0 contact hours will be awarded to all individuals who attend, participate in the group discussions, complete the evaluation form, and are paid in full. This approval is reciprocal in all states and for all specialty organizations that recognize the ANCC approval process.

## ■ COST

\$25/person

**Students:** There will be a number of complimentary seats available for students at each site. Call (573) 882-0215 for student registrations.

**For more information and to register:**
